Subject: Purdue 2013 Budget

Colleagues,

This is being sent at John Stewart's request.

Paulo and Judy suggested that Purdue prepare a probability adjusted list of Opportunities and Threats to Purdue's 2013 sales and profit budget. That list is attached.

The list shows that Purdue has about $150 million of both upside and downside risk – balanced risk.

With respect to the key threats described in the attached (Exclusivity Maintenance, Managed Care losses and Anti-Opioid Activities) the Purdue management team have significant underway to mitigate these risks. Examples of that work include:

- <!--[if !supportLists]--><!--[endif]-->The OxyContin epidemiology studies underway in the R&D group and the

- <!--[if !supportLists]--><!--[endif]-->The extensive work being done to maintaining the low ABUK and abuse-deterrent patents.
- <!--[if !supportLists]--><!--[endif]-->The work being done in the federal and state government affairs groups on the Medicaid rebate line extension proposed regulation.

Opportunities and Threats --- potential 2013 impact on sales and profits

Event	Probability of Event Occurring	2013 Impact	Opportunity Probability Adjusted Impact	Threat Probability Adjusted Impact
OxyContin				
EXCLUSIVITY				
OxyContin is assumed to retain exclusivity.	85%	If exclusivity is lost the sales impact varies depending on date of generic entry.		Impact depends on timing of launch of generic products

MARKET				
Extended release opioid market is projected to be 26.3 million Rx's in 2013. The market could change by 2% either way -- up or down.	25%	Plus or minus $54 million	+ $13.75 million sales	-13.75 million sales
MANAGED CARE				
Managed care coverage is projected to continue at 2012 levels. A number of factors could impact this including:				
Budget assumes that Medicaid Rebate draft rules which classify OxyContin new formula as a Line Extension requiring rebates at the same rate as the old formula retroactive to August 2010. If the rule holds, $236 million in rebates would be paid. If the final rules are decided in a favorable manner, some or all of that payment will be avoided.	50%	$236 million	+$118 million profit

Medicare Part D plans are not selected by patients till the end of 2012. While OxyContin is listed in roughly the same number of plans as in 2012, patient selection could impact the ultimate results. A change of 2% either way is possible --- up or down.	50%	2% of lives = about $15 million in gross sales	+ $15 million sales	-$15 million sales
Optimum Medicare Part D plan is still in negotiation. The budget assumes that OxyContin remains on formulary. Exclusion from formulary would impact sales.	50%	$54 million		-$27 million sales
In 2012 we learned that a number of plans had assumed that generics to OxyContin would become available in April 2013 and may have included the generic savings in their 2013 budget. Plans that budgeted for these savings may take extraordinary measures in 2013 to "make budget".	Not Quantified	Not Quantified		Not Quantified
ENVIRONMENT				
Epidemiology studies provide compelling evidence that the new formula of OxyContin creates effective barriers to abuse. As this data becomes known in the medical community, barriers/resistance to appropriate prescribing of OxyContin could be diminished. opioids) are expected. Anti-opioid advocates like PROP create an environment that encourages policy and formulary makers to limit or frustrate prescribing of opioids. For example: - In Washington State where opioid mg daily limits have been put in place above which a pain specialist must be engaged. Other states are considering this model – e.g. Oregon and Ohio. - Senate Finance Committee investigation into pain advocacy groups -- distracting their efforts and diminishing their effectiveness. - Anti-opioid advocates --- not limited by FDA's requirements for rigorous science and fair balance - campaign against use of opioids. For example, the Group Health Opioid Summit – run by an affiliate of Kaiser. - Cost sensitive and high control payers – like Workers Compensation Insurers – see these advocates' positions as a cost saving opportunity.		share of ERO market = about $25 million in revenue		
In response to the above environmental factors, payers are requesting the ability to prior authorize opioid prescriptions. These requests are being made for perceived societal benefit --- but also because the requestor sees the potential to reduce the number of prescriptions filled.	100%	Assuming that this impacts plans with $100 million in covered sales for part of the year the impact could be 10% or $10 million.		-$10 million sales

Opana ER –Endo recently announced that they expect to return Opana ER to double digit growth in 2013. If that growth is achieved by more sales effort or steeper discounting, there could be a negative impact on OxyContin.	10%	$50 million		$5 million sales
OTHER				
Supply chain is working to reduce a degradant in OxyContin. The polyethylene oxide in the OxyContin formula sourced from Dow may have to be replaced with material from Sumitomo. The replacement may involve inventory write-off. The Sumitomo material is $9 per kilo lower cost than Dow – annual savings after transition could be $0.5 million.	20%	$ 3 million		-$ 0.6 million profit
Trade inventory is projected to decrease from $459 to $403 million during 2013. If trade inventories do not decrease, sales would be higher.	20%	$56 million	+$11 million sales

MANAGED CARE				
The 2013 budget assumes that 35% of lives in Commercial managed care plans have Butrans available on Tier II up from 30% in 2012. An increase to 40% by midyear would increase sales.	25%	$10 million	+$2.5 million sales

Hi, Dr. Richard. Attached you will find the Butrans and Intermezzo data and graphs. As you will observe, we are still seeing overall growth for Butrans, as physicians continue to provide very positive feedback on the product but *perceive* formulary hurdles. I still think there is plenty of opportunity for growth here as we have implemented specific tactics to change this perception. Butrans did reach a new high and cross the 10K Rx barrier for the first time during the week ending 11/9. Intermezzo did also reach a new high bucking the largely flat trend pending our DTC campaign. We do anticipate more rapid growth associated with the DTC campaign when it begins in earnest.

Hi, Dr. Richard. While a little bit down from the week before, both products seem to be at a higher plateau now. Because of the Thanksgiving Holiday, next week will be a light week and then Rx's should rebound nicely the following week.

Hi, Dr. Richard. As per my previous email, Thanksgiving week tends to be one of the lightest of the year. Look for a significant rebound next week.

Subject: November Finance Year-to-Date Flash Report
Attachments: November 2012 Sales Analysis.pdf

Colleagues:

The following is Purdue's November Flash[1] Report.

NET SALES

- November year-to-date Net Sales totaled $1.984 billion. This amount is $143 million less than budget and is driven primarily by lower demand for OxyContin, Butrans and Intermezzo.

- Full year 2012 Net Sales are expected to be in-line with the 2012 Latest Estimate presented to the Board last month.

[1] Flash Finance Report including sales, cash and any finance significant events. Full financial statements are issued at least five times per year – March, May, June, September and December.

- Butrans year-to-date gross sales reached the $100 million milestone, a 52% increase over prior year. Butrans share of the ERO market reached a record high of 1.95% in the month of November and Rxs continue to grow – most recently exceeding 10,000/week.

- Butrans and OxyContin are ending 2012 at run rates that are equal to or slightly better than needed to achieve the 2013 budget.

- Intermezzo sales are behind budget, but trending close to the November LE forecast. The brand team is preparing the DTC campaign which we expect to increase demand in early 2013.

- The Net Sales Report is attached.

CASH

- At the end of November, Purdue's unrestricted cash balance was $934 million. This cash balance is in-line with our forecast. In the month of December we expect to make significant tax payments, non-tax distributions and more. By year-end, we forecast unrestricted cash balance to be $756 million.

All the best,
Ed
