The Honorable Howard Lutnick
Secretary
U.S. Department of Commerce
1401 Constitution Avenue, NW
Washington, DC 20230

Dear Secretary Lutnick:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.¹ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.² FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.³
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”⁴

¹ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

² See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

⁴ Congressional Research Service, *The Freedom of Information Act (FOIA): A Legal Overview* (June 27, 2024) (online at <https://www.congress.gov/crs-product/R46238>).

3. With limited exceptions, the agency must disclose records to the requester promptly.⁵

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.⁶ This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.⁷

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."⁸

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:

6. All memoranda, guidance, or other correspondence between your agency's Office of General Counsel to staff responsible for responding to and processing FOIA requests regarding the following topics for the period between January 21, 2025, and March 20, 2025:
 - a. The appropriate scope of agency searches for responsive records;
 - b. The scope of FOIA disclosures, including proposed blanket limitations;
 - c. The nature and scope of exemptions that should be invoked as a matter of policy; or
 - d. The appropriate period of time for responding to FOIA requests and disclosing responsive records.

The Honorable Doug Burgum
Secretary
U.S. Department of the Interior
1849 C Street, NW
Washington, DC 20240

Dear Secretary Burgum:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.¹ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.² FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.³
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”⁴

¹ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

² See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

⁴ Congressional Research Service, *The Freedom of Information Act (FOIA): A Legal Overview* (June 27, 2024) (online at <https://www.congress.gov/crs-product/R46238>).

3. With limited exceptions, the agency must disclose records to the requester promptly.⁵

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.⁶ This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.⁷

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."⁸

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:

Dear Secretary Duffy:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.²⁵ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.²⁶ FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.²⁷
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”²⁸

3. With limited exceptions, the agency must disclose records to the requester promptly.²⁹

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.³⁰ This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.³¹

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."³²

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:

The Honorable Robert F. Kennedy Jr.
Secretary
U.S. Department of Health and Human Services
200 Independence Avenue, SW
Washington, DC 20201

Dear Secretary Kennedy:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.⁵⁷ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.⁵⁸ FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.⁵⁹
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”⁶⁰

⁵⁷ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

⁵⁸ See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

3. With limited exceptions, the agency must disclose records to the requester promptly.⁶¹

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.⁶² This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.⁶³

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."⁶⁴

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. The Honorable David A. Wright
Chairman
Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, MD 20852

Dear Chairman Wright:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.⁸¹ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.⁸² FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.⁸³
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”⁸⁴

⁸¹ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

⁸² See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

⁸⁴ Congressional Research Service, *The Freedom of Information Act (FOIA): A Legal Overview* (June 27, 2024) (online at <https://www.congress.gov/crs-product/R46238>).

3. With limited exceptions, the agency must disclose records to the requester promptly.⁸⁵

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.⁸⁶ This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.⁸⁷

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."⁸⁸

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:

Mr. Leland Dudek
Acting Commissioner
U.S. Social Security Administration
1300 D Street, SW
Washington, DC 20254

Dear Acting Commissioner Dudek:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.¹¹³ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.¹¹⁴ FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.¹¹⁵
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”¹¹⁶

¹¹³ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

¹¹⁴ See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

¹¹⁶ Congressional Research Service, *The Freedom of Information Act (FOIA): A Legal Overview* (June 27, 2024) (online at <https://www.congress.gov/crs-product/R46238>).

3. With limited exceptions, the agency must disclose records to the requester promptly.¹¹⁷

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.¹¹⁸ This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.¹¹⁹

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."¹²⁰

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:

Acting Administrator
U.S. Agency for International Development
1300 Pennsylvania Avenue, NW
Washington, DC 20004

Dear Acting Administrator Rubio:

Recent reporting indicates that Trump Administration has terminated a number of officials responsible for handling Freedom of Information Act (FOIA) requests.¹³⁷ The elimination of staff responsible for facilitating FOIA is the latest effort by this Administration to conceal its flagrant violations of the law and prevent the public from obtaining the information about their government that they are entitled to request. I urge you to provide detailed information responsive to the requests included in this letter to bring sunshine to the FOIA operations within the Trump Administration.

FOIA ensures that the public has a right to access federal agency information. Since its enactment in 1967, it has been crucial to ensuring government transparency and accountability.¹³⁸ FOIA provides that any person may submit a request for agency records and that agencies must comply with the following when responding to such requests:

1. The agency must review and respond with a determination concerning the scope of the records it will disclose and the exemptions it will invoke within 20 business days.¹³⁹
2. The agency must conduct a search that is “reasonably calculated to uncover all relevant documents.”¹⁴⁰

¹³⁷ ‘Good Luck with That.’ *Trump Administration Terminates Privacy Officials at Agency Overseeing Government Hiring and Firing*, CNN (Feb. 18, 2025) (online at <https://www.cnn.com/2025/02/18/politics/opm-privacy-team-fired/index.html>).

¹³⁸ See *What Is FOIA?* (online at www.FOIA.gov) (Accessed Mar. 17, 2025).

¹⁴⁰ Congressional Research Service, *The Freedom of Information Act (FOIA): A Legal Overview* (June 27, 2024) (online at <https://www.congress.gov/crs-product/R46238>).

3. With limited exceptions, the agency must disclose records to the requester promptly.¹⁴¹

The press and the public have recently used the FOIA process to seek records related to the President's clandestine Department of Government Efficiency (DOGE). FOIA requests on DOGE range from information requests regarding the basic structure, budget, and leadership of the organization to whether DOGE employees with access to sensitive or classified government networks have the requisite security clearances and whether these clearances were granted following national security protocol.¹⁴² This Administration's efforts to dismantle agencies, impound congressionally appropriated funds, and unlawfully terminate civil servants have been rapid and capricious. Now more than ever, maintaining transparency about the operations of government agencies and officials is crucial to enforcing accountability for ongoing abuses of power.¹⁴³

To properly respond to FOIA requests in accordance with the law, agencies must have appropriately staffed and functional processing offices. These practices are the bare minimum to ensure that agencies are able to comply with their legal obligations, but this does not appear to be the case at the Office of Personnel Management, for example. According to reports, the agency responded to a request for DOGE related records from CNN with an email stating: "Good luck with that they just got rid of the entire privacy team."¹⁴⁴

Preserving your agency's ability to respond to FOIA requests is a critical tool to provide the American people the transparency to which they are entitled. In furtherance of the Committee's oversight, I request that you provide the following information to the Committee as soon as possible, but no later than April 3, 2025:
