Dear Mr. Kushner:

Oversight Democrats have been investigating the potential corruption, self-dealing, and abuses of power that have funneled billions of dollars to the Trump family as Americans struggle with rising costs. While the Trump Administration's failed policies have made life increasingly unaffordable for the public, you have engaged in business pursuits that appear to have allowed you to personally profit from your father-in-law's presidency on a massive scale and at the expense of the American people.[1] Voters gave Congressional Democrats a sweeping mandate to root out corruption and ensure that the government is accountable to the people. We intend to act on that mandate in the 120th Congress by conducting the critically important oversight essential for legislative reform. Oversight Democrats demand that you preserve all records, communications, and information relevant to the matters outlined in this letter.

Your personal business dealings and public work on behalf of the U.S. government raise concerns that hundreds of millions of dollars in management fees, business opportunities, and other financial benefits are serving as disguised payoffs for policy changes, preferential treatment, relief from legal scrutiny, and access to sensitive government information and technology.[2] In the second Trump Administration, you appear to have represented the United

States as a lead adviser, negotiator, and envoy on Middle East policy, Gaza, Iran, and Russia's war against Ukraine, and as a member of the Board of Peace's Executive Board and the Gaza Executive Board.[3] Some of these roles have been performed concurrently with your roles as founder and chief executive officer of private investment firm Affinity Partners; substantial equity holder in Kushner Companies; co-founder of Brain Co., an AI startup; and investor or participant in other domestic and foreign business ventures.[4] Directly or indirectly, you have received billions of dollars in fees and investments with particularly troubling ties to Middle East states where you also have a government role.[5] This raises urgent questions about transparency, conflicts of interest, and the abuse of what appears to clearly be a government position—with influence over war, peace, and nuclear proliferation as well as direct access to President Trump—for personal profit.[6]

Americans should be secure in the knowledge that their government is focused on their best interests—not on making the President's family richer. The American people have spoken, and they demand accountability.

The Committee on Oversight and Government Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate "any matter" at "any time" under House Rule X. If you have any questions about this request, please contact Committee Democratic staff at (202) 225-5051. Thank you for your prompt attention to this request.[7]
