**Subject:** Bi-Weekly Update - BP Wind/AE and RM - April 29 - May 10 2019

## BP Wind & Alternative Energy

Maximize the value of the technology upgrade at Flatridge 1 by educating and bringing broader awareness to key stakeholders.

No C&EA Update

Influence AWEA to adopt industry-wide standards that improve operational safety by increasing participation on key committees and supporting BP Wind on panels at targeted conference.

C&EA continues to finalize details of BP's participation at WINDPOWER, to be held in Houston May 20-23.

- BP/Castrol is the exclusive sponsor of the conference's opening reception, to be held May 20<sup>th</sup> at Discovery Green in Houston. BP will hold a private gathering during the reception where Al Vickers and Susan Dio will engage with AWEA leadership, local legislators and Houston stakeholders, and BP WE business partners.

- Brett Clanton is working with AWEA's public relations manager to determine if there is opportunity for a media interview(s) with Al either at the WINDPOWER Conference or at the BP WE office.

- AWEA will kickoff the Welcome Session with the BP Possibilities Everywhere video.

## AWEA Update

AWEA reported that on May 2 the U.S. Department of Energy (DOE) selected four projects for funding to develop next-generation wind turbine drivetrain technologies for tall land-based wind and offshore applications. The projects are aimed at developing more efficient, smaller, and lighter-weight generators. Each project will receive up to \$400,000 to design a generator that can be scaled up to at least 10 megawatts (MW). The selected projects are being led by General Electric, ABB Inc., WEG Energy, and American Superconductor Corporation. DOE will select one project to receive up to \$6.4 million to build and test a scaled prototype of their generator on a wind turbine.

#### **Build advocates to support BP wind farm sites with an expanded community presence and stronger stakeholder engagement.**

Viso is collaborating with site Performance Unit Managers to develop engagement outreach and activities during American Wind Week in August.

#### **Engage communities to build support for potential future AE developments and promote growth of the business.**

Penn State held a press conference where Rep. Chris Rabb and Senator Tom Killion introduced legislation to transition the state of Pennsylvania to 100% renewable energy by 2050 -- 50% by 2038, 80% by 2040 and 100% by 2050. During the press conference, Laurie Mazer, VP of Development, Lightsource BP highlighted the development of the largest development project (70megawatts) in the state to support the university's strategic plan and confirmed Lightsource BP's commitment to support solar development in Pennsylvania and its goal to lower greenhouse emission goal.

Montreal based company, CDPQ, and Lightsource BP announced a partnership to finance a diversified portfolio composed of over 100 solar projects around the world totaling more than 700 MW.

The Social Media team shared, via Twitter and Facebook, a link and a graphic on renewable diesel; retweeted a post from Fulcrum Bio on its partnership with BP; and shared a link to BP's podcast on solar.

#### **Key Upcoming Events**

May 20-23	AWEA WINDPOWER Conference (Cross/Viso/Clanton), Houston
May 21	AWEA Policy & Advocacy Roundup Committee Mtg (Cross), Houston
August 11-17	American Wind Week (Viso)

#### **REMEDIATION**

#### **MANAGEMENT**

Complete community engagement and stakeholder outreach required as part of the Superfund consent decree process and develop allies to advance the ultimate delisting of Superfund sites in Butte and Anaconda, Montana.

## **Redacted - First Amendment**

Berkeley Pit – Mike Abendhoff responded to an inquiry from a reporter at the Montana Standard re completion of the polishing plant and testing of the pipeline from the plant to the creek. Abendhoff confirmed that construction activities are proceeding and expected to be complete in June; water will begin to be treated to the standard needed to release it to Silver Bow Creek and equipment and pipelines will be tested and approved by EPA before water is released. The article was published in the Montana Standard.

# Redacted - First Amendment

Win public support for current remediation plans at the ECI (Energy Cooperative, Inc.) and USS Lead (United States Smelting and Lead) Superfund sites in northwest Indiana.

## Redacted - Privilege

### Redacted - Privilege

Rybarczyk and Johnson plan to distribute copies of the fact sheet to local stakeholders the week of May 20.

East Chicago Mayor Anthony Copeland easily defeated his challenger in the Democratic primary election May 7. The victory in the Democratic primary virtually assures Copeland of another term in office, with November's general election being seen as a mere formality against the nearly non-existent Republican party in East Chicago. Copeland had garnered headlines in the run-up to the primary with comments about seeking more rigorous residential cleanup standards for areas impacted by the former USS Lead Superfund site.

Build public and stakeholder support for current and proposed remediation work for Otter Creek in Toledo, Ohio as outlined in a proposed agreement with USEPA's Great Lakes National Program Office No C&EA update.

### Other Significant Engagements/Matters of Interests

## Redacted - Privilege

The city built the new police station on a portion of the former Amoco Refinery property in Wood River through a funding agreement with BP. Rybarczyk will attend the ceremony along with RM's Fiedler, Chris Greco, and Lori Littrell.

### Key Upcoming Events

May 23	EPA Public Community Meeting to discuss Proposed Plan
August 8-9	Smelterman's Day, Anaconda, MT – AR Sponsor
Sept 24-26	Environmental Council of the States (ECOS) Fall Meeting, Seattle, WA
