Energy Transition Strategy: Alignment Sessions

Feedback across 60 stakeholder sessions centered around three themes:

1. Universal agreement that the energy transition is happening. However, there is a diversity of approaches for how each company is addressing the transition.
2. Houston has a responsibility and opportunity to address the dual challenge of providing reliable and affordable energy while also reducing emissions.
3. Houston must position itself to capture a significant share of transition-related investments and secure its position as the energy capital of the world.

ECONOMY | U.S. ECONOMY

U.S. Job Openings Reach Record as Hiring Slows

Available positions are increasing in warehouses, factories and restaurants, pointing to a shortage in available labor

Workers With Low Wages Are Now in High Demand

By Sebastian Hurn
and Heather Hahn

The fight is on for lower-wage workers.

Some of the biggest U.S. employers of entry-level workers are adding tens of thousands of new positions as the economy recovers from the coronavirus pandemic. Many are raising wages or adding perks to entice workers from other jobs or off the sidelines of the labor market.

An Amazon, Inc., said this week that it would also recruit from workers not offer

\$1,000 signing bonuses in some locations. In latest hiring spree in a year of tremendous job growth, McDonald's Corp. said it wants to hire 100,000 employees in company-owned restaurants in the next three months and that it would raise pay at those locations. CitySight Markets, an office supplies and furniture chain, is among other firms seeking to lure tens of thousands of workers as they move industries and seek to bolster

hiring.

Many companies are struggling to find enough qual-

ified workers, though some are also wary of offering the best wages to take some of those open positions. The Labor Department said Tuesday that jobless claims had continued to reach levels close to pre-pandemic lows.

Demand for workers is so high that wages are rising, too. Average hourly earnings for private-sector employees rose by 21 cents to \$20.12 last month, according to a recent

Financial Times report.

◆ Jobs are rising in trading, food, and other sectors.

Millions Are Unemployed. Why Can't Companies Find Workers?

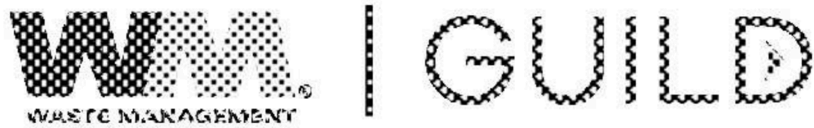

As many as 10 million people are unemployed, but companies are struggling to find workers. Why?

Gretchen Watkins

GREATER HOUSTON PARTNERSHIP

BPA_HCOR_00349602

Our commitment to leverage the power of the business community to address racial inequity in Houston.

STRATEGIC APPROACH

1. Commit to racial equity as a business imperative for inclusive economic growth and global competitiveness.
2. Identify, benchmark, and track collective progress.
3. Source, collect, and promote best practices for advancing equity and inclusion.
4. Act collectively to reduce racial disparities and improve key regional indicators.

[View Partnership's Racial Equity Principles](#)

PHASE 1: Define Opportunity & Engage (April-December 2021)

PRIORITY	Accelerate growth of underrepresented businesses	Increase racial equity in corporate talent pipeline and executive leadership
FOCUS	Supply chain Professional services	Representation Advancement
PHASE 1 KEY ACTIONS	1. Create Purchasing working group to identify barriers and source and share best practices. 2. Determine baseline and associated metrics for improvement. 3. Develop best practices toolkit.	1. Convene Chief Diversity/HR Officer Roundtable. 2. Launch <i>Equity & Inclusion Organization Assessment</i> to track collective progress and community outcomes and determine associated metrics. 3. Collect and share best practices.

Equity & Inclusion Organization Assessment

Based on Global DEI Benchmarks, The Centre for Global Inclusion, ©2021

Assess organizational progress from *Best Practice* to *Inactive* in 15 categories

FOUNDATION: Drive the Strategy

1. Vision, Strategy, and Business Impact
2. Leadership and Accountability
3. DEI Structure and Implementation

INTERNAL: Attract & Retain People

4. Recruitment
5. Advancement and Retention
6. Job Design, Classification, and Compensation
7. Work-Life Integration, Flexibility, and Benefits

BRIDGING: Align & Connect

8. Assessment, Measurement, and Research
9. DEI Communications
10. DEI Learning and Development
11. Connecting DEI and Sustainability

EXTERNAL: Listen to & Serve Society

12. Community, Government Relations, and Philanthropy
13. Services and Product Development
14. Marketing and Customer Service
15. Responsible Sourcing (formerly Supplier Diversity)

Equity & Inclusion Organization Assessment

- **Who is the assessment for?**
Chief HR/Diversity/Talent Officer or senior DEI leader
 - Racial Equity Principle signatories
 - Partnership members
 - Corporations and institutions in the region
- **Assessment period: June 17–July 30, 2021**
 - Link and password provided to one contact and can be shared within an organization
- **6/17 Launch Webinar + Assessment launch**
- **Resources**
 - FAQ and PDF of assessment questions
- **What will assessment participants receive?**
 - Confidential individual scorecard with access to online Best Practice Library
 - Aggregate regional report 60 days after assessment closes
 - Industry benchmarking (requires at least five responses in each industry)

87TH TEXAS LEGISLATIVE SESSION

2021 Session Summary

GREATER HOUSTON **PARTNERSHIP**

BPA_HCOR_00349609

Education

School Finance

Senate Bill 1 - SENT TO THE GOVERNOR

Senate Author: Senator June Nelson (R Flower Mound)
House Sponsor: Representative Greg Babin (R League City)

- \$3.1 billion increase in state funding for public schools, fully covering the cost of enrollment growth over the next two years.
- Ensures funding continuation of all public education programs created in HB 5, the landmark public education legislation passed during the 83rd Legislative Session.
- \$50 million for supplemental special education services.
- \$564 million for targeted programs to help students and schools affected by the pandemic.
- Increases the state's contribution rates for the Teacher Retirement System (TRS).
- \$900 million to maintain current health, insurance premiums and benefits for retired teachers.

The state Legislature has passed a bill that will increase the amount of state funding for public schools. The bill, Senate Bill 1, is a landmark piece of legislation that will provide an additional \$3.1 billion in state funding for public schools over the next two years. This funding will be used to cover the cost of enrollment growth and to provide additional resources for students and schools affected by the pandemic.

The bill also includes provisions to increase the state's contribution rates for the Teacher Retirement System (TRS) and to provide additional funding for special education services.

SB 1 also provides \$50 million for targeted programs to help students and schools affected by the pandemic. This funding will be used to provide additional resources for students and schools that are experiencing challenges due to the pandemic.

Senate Bill 1356 - SENT TO THE GOVERNOR

Senate Author: Senator Paul Bodden (R Houston)
House Sponsor: Representative Harold Dutton (D Houston)
Representative Dan Huberty (R-Kingswood)

- ensures the continuation of the state's accountability system and ensures intervention and support measures for persistently failing campuses and public school districts.

One of the primary concerns of the Texas Legislature is the state's accountability system. The state's accountability system is a key component of the state's education system and is used to measure the performance of public schools and districts. The bill, Senate Bill 1356, is designed to ensure the continuation of the state's accountability system and to provide additional resources for persistently failing campuses and public school districts.

The bill also includes provisions to increase the state's contribution rates for the Teacher Retirement System (TRS) and to provide additional funding for special education services.

SB 1356 also provides \$50 million for targeted programs to help students and schools affected by the pandemic. This funding will be used to provide additional resources for students and schools that are experiencing challenges due to the pandemic.

Key provisions of the legislation include the following: The bill will ensure the continuation of the state's accountability system and will provide additional resources for persistently failing campuses and public school districts. The bill will also increase the state's contribution rates for the Teacher Retirement System (TRS) and will provide additional funding for special education services.

Finally, the bill includes provisions to increase the state's contribution rates for the Teacher Retirement System (TRS) and to provide additional funding for special education services. The bill also provides \$50 million for targeted programs to help students and schools affected by the pandemic.

- \$20 million for supplemental special education services.
- \$264 million for targeted programs to help students and schools affected by the pandemic.
- Increases the state's contribution rates for the Teacher Retirement System (TRS).
- \$300 million to maintain current health insurance premiums and benefits for retired teachers.

The state Legislature has passed a bill that will increase the amount of state funding for public schools. The bill, Senate Bill 1, is a landmark piece of legislation that will provide an additional \$3.1 billion in state funding for public schools over the next two years. This funding will be used to cover the cost of enrollment growth and to provide additional resources for students and schools affected by the pandemic.

The bill also includes provisions for special education services, targeted programs for students and schools affected by the pandemic, and increases in the state's contribution rates for the Teacher Retirement System (TRS).

Senate Bill 1 is a landmark piece of legislation that will provide an additional \$3.1 billion in state funding for public schools over the next two years. This funding will be used to cover the cost of enrollment growth and to provide additional resources for students and schools affected by the pandemic.

Senate Bill 1356 - SENT TO THE GOVERNOR

Senate Author: Senator Paul Boddenourt (R-Houston)

House Sponsor: Representative Harold Dutton (D-Houston)

Representative Dan Huberty (R-Kingwood)

- ensures the continuation of the state's accountability system and ensures intervention and support measures for persistently failing campuses and public school districts.

One of the primary concerns of the Texas Legislature is the state's accountability system. Senate Bill 1356 is a landmark piece of legislation that will ensure the continuation of the state's accountability system and ensure intervention and support measures for persistently failing campuses and public school districts.

Key provisions of the legislation include the continuation of the state's accountability system, the implementation of intervention and support measures for persistently failing campuses and public school districts, and the implementation of a new system for monitoring and supporting struggling schools.

The bill also includes provisions for the continuation of the state's accountability system, the implementation of intervention and support measures for persistently failing campuses and public school districts, and the implementation of a new system for monitoring and supporting struggling schools.

Finally, the legislation also includes provisions for the implementation of a new system for monitoring and supporting struggling schools. This system will be used to identify and support struggling schools and to ensure that they are able to provide a high-quality education for all students.

SB 1356 will ensure that the state's accountability system is able to identify and support struggling schools and to ensure that they are able to provide a high-quality education for all students.

Broadband Access and the Digital Divide

House Author: Representative Trent Ashby (R-Lutkin)

Female Sponsor: Senator Robert Nichols (Red Jacketville)

- Establishing the Broadband Development Zone capped with closing the digital divide in Texas

Although the *Journal* has a reputation for publishing the most important research in the field, it is not without its critics. Some have argued that the *Journal* is too much of a "club" and that it is not open enough to new ideas and research. Others have argued that the *Journal* is too much of a "journal" and that it is not open enough to new ideas and research. However, the *Journal* has a long history of publishing the most important research in the field, and it is likely to continue to do so for many years to come.

It is true, but the point is that I am not merely observing an action being done. The definition requires, namely, a signification, from which, assuming the action is to be carried out, it is to follow.

School Accountability Reform

House Author: Representative Dan Huberty (R-Kansas)

Genevieve Hanson; Schneider Family Fellow (A-Galveston)

- a \$2 billion to address ongoing learning loss during COVID-19 and Winter Storm Uri.

- \$404 million in increased grant funding for students with dyslexia, autism, and students experiencing homelessness.

- Funding for the Teaching Incentive Alliance, created in H.R. 3, which incentivizes higher performing teachers to teach in low performing schools through salary increases.

In addition, the film traces several other notable moments in the history of the film industry. In 1928, by Republic Pictures, *Don Juan*, directed by Josef von Sternberg, was a huge success and a film made in a similar style followed in the next few years. In 1930, *Public Enemy*, directed by James H. Hogan, was a film made in a similar style, and it was the turning point in the history of the film industry, which is why it is called a "classic".

And it's just as relevant to learn more about the
 business practices of the companies that
 are making and selling the products that
 we use every day. For example, how do they
 source their materials? How do they treat their
 workers? How do they handle waste?

Software engineers for applications that do not require a high level of program control and support are more likely to use D and W than to use Fortran or C. The number of applications that use D or W is small, but the number of applications that use D or W is large. The number of applications that use D or W is small, but the number of applications that use D or W is large.

Federal Funding for Texas Public Schools

- Releases \$1.7 billion in federal Elementary and Secondary School Emergency Relief (ESSER) III funding to Texas public schools.

- \$2.4 billion in LSCER II funding estimated for the 20 largest school districts in the Houston region with economically disadvantaged students receiving significantly more funding per student.

Laboratory investigations in 1990 by Dr. Susan and Colleagues at Eastern Michigan University revealed the presence of *S. Typhimurium* in ground beef and hamburger patties from the Food Service, R. W. M. S. R. H. in the vicinity of the pool. In the following year, the findings were reported to the public by the health department. (1,2,3,4,5,6,7)

These new figures have implications for 2009's performance, but they also mean that the Department of Education will have to find more than \$1 billion in additional funding.

These measures have been most effective in reducing the number of deaths from AIDS in the United States. In 1990, the number of deaths from AIDS was 1,000. By 1995, the number of deaths had fallen to 500. This was due to a combination of factors, including the widespread use of antiretroviral drugs, the development of more effective diagnostic tests, and the implementation of more aggressive treatment strategies. The Centers for Disease Control and Prevention (CDC) estimates that the number of deaths from AIDS in the United States will continue to decline in the coming years.

2008) and the use of private and business networks. These networks are often characterized by a high degree of trust and reciprocity and are often used to provide support and resources to entrepreneurs. The use of private and business networks is often a key factor in the success of entrepreneurs, particularly in the early stages of their venture. The use of private and business networks can provide entrepreneurs with access to capital, expertise, and other resources that are essential for the success of their venture. The use of private and business networks can also provide entrepreneurs with a sense of community and support, which is important for their well-being and the success of their venture.

The program is designed to help students learn to make better choices about their eating habits, and to help them understand the importance of eating healthy. The program is designed to help students learn to make better choices about their eating habits, and to help them understand the importance of eating healthy.

These findings have implications for the design of the program and the future research. The findings suggest that the program should be designed to be more interactive and to provide more support for the participants. The findings also suggest that the program should be designed to be more flexible and to allow for individual differences in the participants. The findings also suggest that the program should be designed to be more culturally sensitive and to take into account the cultural differences of the participants. The findings also suggest that the program should be designed to be more accessible and to provide more support for the participants. The findings also suggest that the program should be designed to be more effective and to provide more support for the participants.

Our Roles Include:

**GOOD
REASON
HOUSTON**

District Support Zone Includes:

Our impact

Results to Date

15,000 ↑

We estimate the number of high-quality seats has grown by 15,000 as a result of our work and investments since 2019.

2025-26 Goal

+45,000

We aim to grow the number of high-quality seats by 45,000 by the end of 2025-26 school year.

Current Support Highlights

Supporting a district-wide strategy for improvement in Aldine ISD focused on turnaround of continuously underperforming campuses and interventions for chronically underserved student populations (20,000 students impacted)

Assisting Aldine, Alief, Houston, and Pasadena ISDs to design new systems to identify, retain, and reward top teachers (25,000 teachers impacted)

Partnering with Alief ISD to develop precesseting strategies for student learning recovery (45,000 students impacted)

Developing a new 'school finder' tool in partnership with Houston ISD to help parents find and identify the strongest public school for their child (200,000 families impacted)

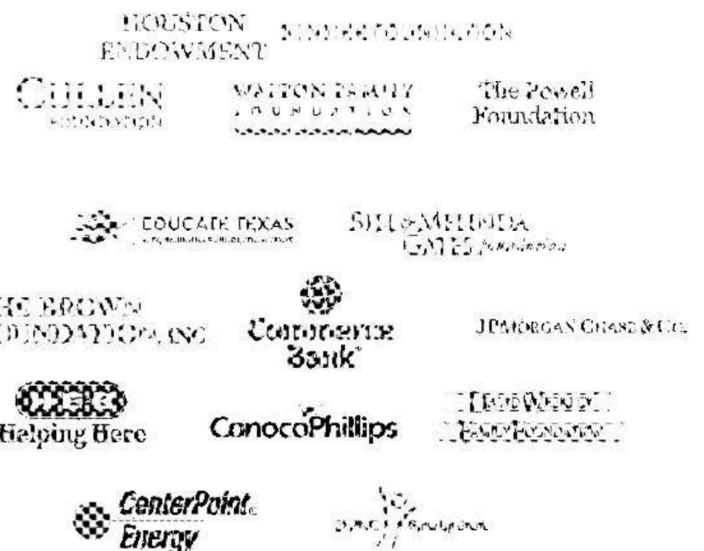

Growing awareness about free early learning programs via partnerships with Telemundo and Univision to boost pre-k enrollment in school districts within our support zone. (30,000 families impacted)

How You Can Help

We aim to raise
\$35MM by 2025-26

- Grow the number of children learning in a great public school daily by 45,000
- Augment capabilities of school districts to sustain improvements
- Accelerate learning for Houston students to catch up following the pandemic
- Leverage historic state and federal investments in public education

We hope you'll join us.
