Mr. Richard W. Heo
Chief Executive Officer
Gulf Island Fabrication, Inc.
16225 Park Ten Place, Suite 300
Houston, TX 77084

Dear Mr. Heo:

The Select Subcommittee on the Coronavirus Crisis requests that Gulf Island Fabrication immediately return the Paycheck Protection Program (PPP) loan it obtained so that these funds may be used to support truly small businesses that are struggling to survive during the coronavirus crisis.

When Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act with broad bipartisan support, we intended to provide an invaluable lifeline for small businesses that otherwise might be forced to lay off employees or shut down entirely.¹ We did not intend for these funds to be used by large corporations that have a substantial investor base and access to capital markets.²

Unfortunately, many large companies were able to utilize this program and obtained PPP loans that were intended for small businesses. Some of the companies returned these funds amid widespread public outrage.³ However, other companies—including yours—still have not returned these funds.

This is an issue of significant bipartisan concern. As House Republican Leader Kevin McCarthy recently stated during a nationally televised interview:

I was on the phone with the President and the Secretary Mnuchin yesterday, making sure that that's not gonna happen, that we will go after those big companies that cheat the system.⁴

Similarly, Treasury Secretary Stephen Mnuchin called these actions “outrageous” and added that he never would have expected such abuses “in a million years.”⁵

On April 20, 2020, your company reported to the Securities and Exchange Commission that you obtained a PPP loan in the amount of \$10 million.⁶ According to your website, your company is “a leading fabricator of complex steel structures, modules and marine vessels.”⁷ You have over 900 employees and reported revenue of more than \$300 million in 2019.⁸

Since your company is a public entity with a substantial investor base and access to capital markets, we ask that you return these funds immediately. Returning these funds will allow truly small businesses—which do *not* have access to alternative sources of capital—to obtain the emergency loans they need to avoid layoffs, stay in business, and weather the economic disruption caused by the coronavirus crisis.

We request that you inform us by May 11, 2020, of whether you will return these funds, including the specific amount being returned and the date by which the funds have been or will be returned.

If you choose not to return some or all of these funds, we request that you produce by May 15, 2020, all documents and communications (1) between your company and the Small Business Administration and the Department of the Treasury relating to the PPP loan; and (2) between your company and any financial institution relating to the PPP loan, including all applications for a PPP loan.

Modeled after the Truman Committee during World War II, the Select Subcommittee on the Coronavirus Crisis was established by the U.S. House of Representatives on April 23, 2020, pursuant to House Resolution 935, “to conduct a full and complete investigation” of the “efficiency, effectiveness, equity, and transparency of the use of taxpayer funds and relief
