

## BP material issue prioritization

21 August 2018

### Agenda

1. Process overview
2. Issue prioritization for reporting
3. IMWG positions input

### Process overview

July Material issues spreadsheet sent out with materiality criteria to confirm prioritization and suggest potential new issues. Reporting and Policy teams follow up with internal stakeholders.

Aug Cross-business and functional group meets to discuss potential changes.

Sept IMWG reviews proposed 2019 agenda.  
CRAG and SEEAC review materiality matrix for reporting.

Attendees engaged in the process:

#### **Reporting**

Jill Douglas  
Kate Niblock

#### **Policy**

Nick Allen  
Antony Andrews

#### **Energy economics**

William Zimmern  
Paul Appleby

#### **Technology**

Michelle Horsfield

#### **Risk**

James Hubbard-Ford  
Steve Wackerle  
Iain Shearer

#### **S&OR**

Jaume Corbella  
Ken Hudson  
Tyrone Kalpee  
Liz Rogers  
Nili Safavi  
Sam Walker  
Andy Walsh  
Alistair Wyness

#### **Government and regulatory affairs**

Tatia Julakidze  
Seymour Khalilov  
Bob Stout  
Simon Worthington

#### **Downstream**

Andrea Abrahams  
Anders Bitsch-Larsen  
Rachel Bradley  
Lorna Fallon  
Christoph Van Belle  
Jim Wallace

#### **Upstream**

Sue Ford and team  
Sarah Johnson  
George Stalter

#### **Remediation management**

Harvey Johnstone

## Issue prioritization for reporting

### 1. Prioritization change suggestions

All proposed changes are in red.

	<i>Stakeholder concern</i>	<i>Impact on business</i>
• CCUS	M-H	M
• Role of natural gas	H	H-M
• Role of oil	H	H-M
• Hydraulic fracturing	H-M	M
• Oil sands	M-L	M-L
• Spills: prevention, preparedness and impacts	H-M	H
• Carbon offsets	L-M	L-M
• Diversity and inclusion	M-H	M
• Circular economy, including plastics	L-M	L-M

### 2. Issues that may change in the near term

These issues were discussed as having the potential in future years to increase in stakeholder concern and/or business impact rather than in the current year.

	<i>Stakeholder concern</i>	<i>Impact on business</i>
• Climate change adaptation	M	M
• Innovation	M	M
• Future mobility (inc. electric vehicles)	H	M
• FPIC	L	L

### 3. New issues

	<i>Stakeholder concern</i>	<i>Impact on business</i>
• Customer emissions	H	M
• Climate change and human rights	L	L

## IMWG positions

### 1. Issues already in the hopper for 2018/2019

- Strategic resilience
- The role of gas
- Sensitive and protected areas
- Long-term emissions targets
- Energy access
- Waste plastics and the circular economy
- Climate change adaptation

### 2. Suggestions for new positions

- Non-operated joint ventures
- International trade and sanctions

### 3. Suggestions for potential revisions

- Advocacy and lobbying
- Water
