Hi Mary. Hope last week's events went well as it seems from the reports. I had a good visit in London with the Harvard Tufts symposium and meetings with a number of folks.

After receiving this invitation following a discussion I had with the Policy team I shared it with Joe. I let Ira know that he might be coming over and I would let her know. It sounds like Joe and JP have already discussed this with you and that one or both of them will be representing US C&EA at this meeting. I assume that I should reply and let Ira know that one or both will be going. Although the time is early I may try to dial in as well as.

Let me know and thanks in advance.

Bob

**Subject:** Gas and Power Advocacy in the Energy Transition Workshop. 26 November. SJS

Dear All,

Thank you for your input and for taking the time to join the Gas & Power Advocacy workshop that we've put together with the C&EA team.

The idea is not to interfere with any ongoing strategic work but to provide some granularity around existing and emerging positions in 1H 2020.

A key area of discussion will be around "future-proofing" gas for the energy transition.

Ahead of the event could you please prepare a short list outlining your key areas of focus and external milestones, such as conference, initiatives or groups you are part of.

Attached are some materials which may be helpful for your preparation:

- Workshop scope & agenda
- Bob Dudley's speech at Energy Intelligence
- Decarbonized gas narrative - *Matt has pulled together a long form narrative based on the discussion on gas at the September PAWG meeting. This document is not for external publication, rather a way of internally working out and agreeing our full argument, position and proposals. This is a work in progress and provides the basis for further discussion. Once finalised it can be used as source material for developing external communications such as talking points, speeches and articles.*

An outlook invitation will follow shortly.

Thank you and looking forward to seeing you on 26 November.

Clare & Ira
