**Subject:** Outcomes from our issue prioritization discussion

Hi,

Thanks very much for your input to the issue prioritization process for corporate reporting and IMWG positions.

As a result of this engagement, including the group discussion this week, we have made the following changes:

# Redacted - First Amendment

## **IMWG proposals**

Proposed new positions for consideration by IMWG in 2018 are:

- The role of oil
- Portfolio resilience
- BP's contribution to society
- Waste plastics (information note)

Proposed positions for revision:

- Methane emissions
- Climate change adaptation
- Future mobility (inc. electric vehicles – currently Electrification of transport)
- The role of natural gas
- Air quality
- Arctic
- Oil sands

There were a couple of outstanding points for us to follow up with various colleagues (e.g. decommissioning) and we may in touch with some of you separately to discuss further.

In terms of next steps, the Corporate Reporting Advisory Group and SEEAC will review the material issues for reporting in September. IMWG will also review the proposed 2018 agenda in September.

Thanks again for your help.

With best wishes,

Kate and Ant
