Subject: Recap: The Energy Council Summer Meeting

All-

Below is a quick recap of The Energy Council's Summer meeting in Bismarck, ND last weekend:

- Radford attended The Energy Council's State and Provincial Trends in Energy and the Environment Conference in Bismarck, ND over the weekend continuing BP's support and engagement of The Energy Council and CLEER, **Center for Legislative Energy and Environmental Research**, previously held by BP Alaska's Paul Quesnel. Roughly 75+ member attendees participated in the three day meetings including legislators, commissioners and stakeholders from the twelve member states and two Canadian Provinces along with company and industry representatives. BPA is well respected, and appreciated, in this space and continue to find the sessions to be of value and offer a great platform to engage and develop relationships in a non-threatening atmosphere to discuss energy, politics and policy in the respective states.

Below are some quick highlights:

- During the opening session in the North Dakota House Chambers Friday morning in front of 75+ attendees including **North Dakota Governor Doug Burgum and numerous state legislators**, BP was recognized from the podium by **New Mexico State Senator Carroll Leavell** for our support of both TEC & CLEER.

Redacted - First Amendment

- Radford spent time with **NOIA's Randall Luthi** connecting on Gulf of Mexico matters after his speech Friday discussing BP's positive support and partnership with NOIA by Thomas and others, and a future opportunity to engage in D.C.
- BP was recognized and thanked from the podium by **New Mexico State Senator Carroll Leavell**, also with place cards at each seat, during the **CLEER University Advisory Board Seminar** Luncheon on Saturday...legislators and industry reps from among UAB member states attended.

Redacted - First Amendment

- Radford provided feedback and presentations to BP C&EA Team members, also the BP Tax Team, from sessions on *State and Local Oil and Gas Tax Issues*, also providing LMOGA's Tyler Gray with the Presentation from North Dakota for review in comparison to Louisiana.
- At the next meeting in September in Little Rock, AR, one of the panels is titled **North American Wind Power Status Update...BP's Laura Folse** could potentially be a wonderful presenter on this subject matter to tell BP's wind story if it works out. Radford will work with Bob Minor on the possibility.
- Lastly, at the Program Advisory Board business meeting Sunday morning, wording on a potential Policy Statement from The Energy Council on the proposed the Carbon Tax was put forth, Radford discussed prior to the meeting with TEC Director Lori Cameron, and Radford raised a pause for review before being put forth at the next meeting in Little Rock in September based on BP's recent support and engagement of the Climate Leadership Council. Cameron notified Radford this week that it will be tabled for the foreseeable future based on similar discussions with other majors.

Happy 4th to all...
-Wynn
