Subject: Reaction to TA review publication
[TA initial reaction report.docx](#)

I have attached a summary of the reaction to the publication of the TA review.

Overall pretty balanced and factually covered. Some positives and a bit of negative coming back from AFPM and WEA in particular.

Key now is follow up with the other TAs and in particular those that are partially aligned – the local reps have got this action.

Happy to provide any further colour or insights.

David
