Hi. See below. I was not aware of the Figueres connection to CLC. Shame on me.

Great that CLC will amplify.

We are getting positive responses from some others too. All being cataloged.

Hi Joe,

Happy New Year and congratulations to you and the team on a very compelling op-ed. As you may know, Christiana Figueres is also a Founding Member of the Council. In fact, in our Roadmap she has a strong quote expressing a similar sentiment about the need to work with businesses towards a climate solution. Great to see her co-author the op-ed with Bernard. We will definitely amplify on our social media channels.

All the best,

Greg

Hi, Greg and Steve. I hope your holiday season was good and that the new year is off to a great start for you.

This morning, CNN published a great opinion piece, authored by Bernard Looney, bp's CEO, and Christiana Figueres, the former executive secretary of the United Nations Framework Convention on Climate Change.

You can find the article [here](#).

Redacted - First Amendment

This piece is well worth the read, and if you believe it is appropriate, I encourage you to share it with others, even using your own channels if you'd like.

Thanks much. Look forward to what we are going to accomplish this year!

Joe
