Subject: FW: API Op-Ed: Methane Emissions

Interesting timing. Well written. Key messages include:

- climate change is real and API is in action
- gas production way up, emissions down
- EPA's rules will expand to cover 85% of production by 2023 (I have a lot to say about this point – happy to discuss)
- The Environmental Partnership is cool
- Avoids the elephant in the room – direct regulation of methane – but implies it wont be necessary because 85% of production will be regulated regardless

Subject: API Op-Ed: Methane Emissions

ESC Members:

I'd like to flag for you Erik Milito's op-ed, "[The US Oil and Gas Industry is Laser-Focused on Cutting Methane Emissions](#)" on *RealClearEnergy*, which went live this morning. Please feel free to share as you see fit.

Thanks,
Smythe
