Coms and engagement

- ACTION: share "what we will say about DNG".
- Nearest deliverable with simplified product coms bullets for T&S customer engagement.

EDF

- Are going to talk to the EDF again? Question for Fuzzy...
- Action: JG - talk to Fuzzy to come to decision.
- EDF - we need to be clear on intention and purpose.
- Not for buy in but updating.
- Make them understand how our product is underpinned by measurement.
- EDF - endorsing MiQ not likely - but could recognise that MiQ offers a pathway to more universal use of measurement. This is achievable.

Exxon Comments

- When we step out in this space it will propagate through media channels (professional and Social). The Exxon stories was a post to Reuters but quickly spread.
- How much do we want to actively push vs. letting it be naturally shared?
- EDF; notably chose not to respond directly. Commented on broader themes to methane regulation and transparency.
- Cherry picking - "intention to scale to other areas" needs to land which did not with Exxon announcement.
 - How do we talk about this both to communicate likelihood to expand and its interplay in AIM4 will be consider.
 - ACTION: Coms team / project team - consider how we communicate scale vs. cherry picking. Also topic for Fuzzy.
