 - f. Move SEC discussion with Joe and Heidi? (currently scheduled for Wednesday morning)
 - g. Bp API exec briefing meeting with Dave Wednesday afternoon – just have Joe/Lance attend?
3. Fieldwood dispute - engagement plan from Nuno to share with starlee - **needs your approval**
4. Meeting with the C2ES' Business Environmental Leadership Council (**Isabel attending**)– about their **plans for the Climate Summit on April 22nd**. Do you **have any immediate questions you want to make sure get asked?**
5. Unfortunately, per E&C guidelines, you have to add your own COIs to the E&C Registry (your board memberships). Can do so here → <https://ecregister.bpweb.bp.com/>
6. **John's response on return to office:** there is guidance from group health to which we are supposed to adhere that prevents us from requiring vaccines unless DC requires them by law. It's a bit of a different issue than whether we can ask about it, but here too we are asked to wait for further guidance before sending out our own questionnaire. My sense is they want this centralized rather than individual locations initiating their own processes.
