Subject: Re: CCD FSG Meeting Follow Up

Good afternoon,

Given the tight timeline to Wednesday, and the initial circulation of the document late last evening, we wanted to recirculate the CEO fly-in preparation pack with a request to provide any reaction to us by EOD today. Given the direct input provided during yesterday's discussion and the tight timeline, we believe this document represents a substantially complete product. However, we also want to be sure to provide an opportunity for the group to weigh in on the phrasing and emphasis of the questions proposed for the CEOs to consider. If you have any suggested edits, please provide them in the Teams doc (linked below) or to us directly. If any edits are provided, we will consolidate them and provide the final version of the packet in advance of the weekend in order to maximize preparation time.

Thank you!
