Lunch Discussion on Carbon Pricing Strategy – Wednesday, July 13, 1:00 – 3:00 p.m., GE Office—

(David van Hoogstraten Attending)

We will be joined by Jerry Taylor, President of the Niskanen Center, and George Frampton and Walt Minnick, co-founders of the Partnership for Responsible Growth, for a conversation about longer-term domestic carbon pricing strategy as we head into and beyond the election. This session will be open to non-BELC members.

BELC Meeting 3:15-5:30 (13th) and 8:00 a.m. – Noon (14th). GE Office. C2ES will host a dinner offsite from 6 – 8 p.m. (Stay tuned for details)

See agenda attached.

Initial Meeting of Corporate Internal Carbon Pricing Working Group – Thursday, July 14, 12:00 – 2 p.m. GE Office.

C2ES is creating a working group for organizations interested in exploring the value of internal corporate carbon pricing models to drive emissions reductions and potentially raise funds that can be spent on tangible environmental and social impact. This will be a place to share and learn about internal pricing models, but not to discuss carbon pricing policy. In our first meeting, we will hear from Michael Mondshine and Dan Sobrinski at WSP | Parsons Brinkerhoff, who have collaborated with Microsoft on its internal pricing model. If you are interested in either learning more about internal pricing models or sharing your own experience, please feel free to join. This working group will be open to non-BELC members, and there will be a conference line if you would like to attend remotely.
