Subject: AOGA and Arctic Encounter panel speaker help

Redacted - First Amendment

Redacted - First Amendment The actual invite from our AOGA president is below:

“I’m working on issuing invitations for AOGA’s Conference on May 30, 2019. The theme is “Alaska – Back on the Map” in recognition of the increased investment and the efforts by the state and federal government to increase opportunities for development. I believe we should have one of our speaking opportunities to address climate change. I would like to field a panel of industry experts (preferably not from Alaska) **that could discuss the innovative ways industry is leading in providing the cutting edge technology and operational changes to lower emissions.** It’s a positive news story that never seems to get attention and doesn’t cause any potential conflicts between those companies that may/may not support carbon taxes.”

Let me know if more info is needed and thanks for any help you and Jim Nolan can provide.

Wendy Lindskoog
