Hi Spencer & Sarah,

Hope you're both hanging in there!

Just a heads up that "12 Reasons Why Natural Gas Should be Part of Africa's Clean Energy Future," by Stanford's Mark Thurber and me will go live on the *World Economic Forum* site this Thursday. Advanced copy attached.

This is the beginning of a targeted body of work to ensure that gas remains part of the development mix and to slow down the donor push to prematurely exit downstream financing.

Best

Todd
