Subject: Reuters Article Link - McCarthy on Methane

McCarthy defends EPA move for oil, gas companies to cut methane emissions

The US energy industry must do more to combat methane emissions, which are higher than previously believed, according to Environmental Protection Agency Administrator Gina McCarthy. "Methane emissions from existing sources in the oil and gas sector are substantially higher than we previously understood," McCarthy said at IHS CERAWeek. "The data confirm that we can and must do more on methane." [Reuters](#) (2/24)
