**-Privileged and Confidential-**

Upstream Committee Members:

On behalf of Chairman Steve Green, please see attached the following meeting materials for our Upstream Committee Conference call on 1/19 @ 4:00 pm ET:

- Meeting Agenda;

## Redacted - First Amendment

- API Executive Committee Methane Update on 12/8/2020

You should have a calendar notice with call-in and Microsoft Teams details on your calendar already. Should you require that information, please let me or [REDACTED]@api.org know as soon as possible.

We look forward to soliciting and receiving API Member feedback and input on this important issue.

Of note, given the sensitive nature of these documents, we are distributing via this email list-serve to Upstream Members only. Feel free to share with appropriate staff on your team inside your companies, but we ask that you do not forward to anyone outside your organization. Obviously, should you have staff whom you'd like to receive this information separately from us, please let me know.

Our intention is that this discussion and any action taken by the Committee remains internal to companies and API at this time, so thank-you for that in advance.

Should anyone have questions before Tuesday's meeting, please feel free to contact me directly: [REDACTED]

Hope everyone has a great, restful MLK weekend,

**Lem O. Smith, IV**

Vice-President

Upstream Policy & Industry Operations

American Petroleum Institute
