Ken – FYI, I will be attending this – Brad Sims helped API with comments that they will be submitting prior to the hearing.

Subject: ICC - Electric Vehicle & Grid Stabilization hearing

The Illinois Commerce Commission will be hosting a policy session agenda meeting next week in Chicago to discuss the “Nexus Between Electric Vehicles and Grid Stabilization.” Jim Watson flagged it and the agenda is attached for your review.

As you’re all aware, the ICC is current in the midst of an 18-month Project Next Grid study that is supposed to address critical issues facing Illinois’ electric utility industry in coming decades. Information gleaned from this policy session could be incorporated into that discussion.

Thanks,

Mark
