

OGCI Dialogue
Key Attendee Biographies
Monday, September 23, 2019

There are approximately 125 confirmed attendees for the OGCI Stakeholder Dialogue session; notable attendees, as identified by P&GA, are listed below for DWW's awareness:

	Name	Title	Company
	[HYPERLINK \I "Armstrong"]	Director	MIT Energy Initiative
	[HYPERLINK \I "Arya"]	Chief Energy Strategist	IHS Markit
	[HYPERLINK \I "Bakker"]	President and CEO	World Business Council for Sustainable Development
	[HYPERLINK \I "Book"]	Managing Director	ClearView Energy Partners, LLC
	[HYPERLINK \I "Bordoff"]	Founding Director	Columbia University Center on Global Energy Policy
	[HYPERLINK \I "Brownstein"]	Senior Vice President, Energy	Environmental Defense Fund
	[HYPERLINK \I "Burke"]	Director	Climate Investing Initiative, Univ. of Notre Dame
	[HYPERLINK \I "Campanale"]	Founder and Executive Director	Carbon Tracker
	[HYPERLINK \I "Crabtree"]	Vice President, Carbon Management	Great Plains Institute
	[HYPERLINK \I "Doniger"]	Senior Strategic Director, Climate and Clean Energy Program	Natural Resources Defense Council
	[HYPERLINK \I "Figueres"]	Global Optimism	Founding Partner
	[HYPERLINK \I "Florini"]	Vice President for Programs	Climate Central
	[HYPERLINK \I "Friedmann"]	Senior research Scholar	Columbia University Center on Global Energy Policy
	[HYPERLINK \I "Halstead"]	Chairman and CEO	Climate Leadership Council
	[HYPERLINK \I "Hobley"]	Chair, Advisory Board	Carbon Tracker
	[HYPERLINK \I "Kortenhorst"]	CEO	Rocky Mountain Institute
	[HYPERLINK \I "Logan"]	Senior Director, Oil and Gas	Ceres
	[HYPERLINK \I "Loo"]	Director of the Andlinger Center for Energy and the Environment	Princeton University

[HYPERLINK \I "Lubber"]	CEO and President	Ceres
[HYPERLINK \I "Mendiluce"]	Managing Director	World Business Council for Sustainable Development
[HYPERLINK \I "Meyer"]	Vice President, Business Engagement	Center for Climate and Energy Solutions
[HYPERLINK \I "MolinValdes"]	Head of the Secretariat	Climate and Clean Air Coalition
[HYPERLINK \I "Page"]	CEO	Global CCS Institute
[HYPERLINK \I "Paltsev"]	Deputy Director	MIT Joint Program on the Science and Policy of Global Change
[HYPERLINK \I "Peace"]	Senior Vice President, Policy and Business Strategy	Center for Climate and Energy Solutions (C2ES)
[HYPERLINK \I "Perciasepe"]	President	Center for Climate and Energy Solutions (C2ES)
[HYPERLINK \I "Pershing"]	Program Director, Environment	Hewlett Foundation
[HYPERLINK \I "Ratner"]	Senior Director	Environmental Defense Fund
[HYPERLINK \I "Robertson"]	Global Strategy Director	Citizens' Climate Lobby
[HYPERLINK \I "Schuwerk"]	Executive Director Carbon Tracker North America	Carbon Tracker
[HYPERLINK \I "Seymour"]	Distinguished Senior Fellow	World Resource Institute
[HYPERLINK \I "Simpson"]	Director, Board Governance and Strategy	Calpers
[HYPERLINK \I "Sullivan"]	Executive Director	IPIECA
[HYPERLINK \I "Victor"]	Co-Chair, Cross-Brookings Initiative on Energy and Climate	Brookings Institution
[HYPERLINK \I "Waltzer"]	Managing Director	Clean Air Task Force
[HYPERLINK \I "Webb"]	Director, Climate Markets	The Nature Conservancy (TNC)
[HYPERLINK \I "Yergin"]	Vice Chairman	IHS Markit
[HYPERLINK \I "Zindler"]	Head of Americas	Bloomberg New Energy Finance (BNEF)

* **Bold font indicates P&GA recommends DWW engagement, if possible.**

Robert Armstrong
Director, MIT Energy Initiative

Robert Armstrong directs the MIT Energy Initiative, an institute-wide initiative at the Massachusetts Institute of Technology linking science, technology, and policy to transform the world's energy systems. A member of the MIT faculty since 1973, Armstrong served as head of the Department of Chemical Engineering from 1996 to 2007. His research interests include energy, the rheology of complex materials, and polymer fluid mechanics.

Notes: Good ally; supports LCA model work.

[[HYPERLINK \I "TOP"](#)]

Atul Arya, Ph.D.
Senior Vice President, Energy, IHS Markit

Dr. Arya has overall responsibility for strategy, research content, consulting delivery and business performance for energy industry services, including upstream, midstream, downstream, power, gas, coal and renewables. He previously served as senior vice president of energy research and analysis at IHS and was responsible for the research, analysis and content development across all industries served.

Earlier in his career he worked with BP in a number of operational, business, technical and strategic positions around the world for more than 20 years.

Notes: Promoting central data repository to replace CDP.

[[HYPERLINK \I "TOP"](#)]

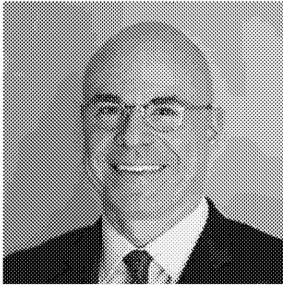

Peter Bakker
President and Chief Executive Officer; World Business Council for Sustainable Development (WBCSD)

Mr Bakker has led WBCSD since 2012.

WBCSD is a global, CEO-led organization of over 200 leading businesses working together to accelerate the transition to a sustainable world. WBCSD member companies come from all business sectors and all major economies, representing a combined revenue of more than USD \$8.5 trillion and with 19 million employees.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Kevin Book
Managing Director, ClearView Energy Partners LLC

Kevin Book heads the research team and covers oil, gas and coal policy at ClearView Energy Partners, LLC, an independent firm that examines macro-energy issues for institutional investors and corporate strategists. The firm's data-backed and transparent research process marries economic forecasting with policy analysis to look ahead at U.S. and global events and decisions that shape supply, demand and price.

Notes: Provides insightful energy industry analysis.

[[HYPERLINK \I "TOP"](#)]

Jason Bordoff
Founding Director, Center on Global Energy Policy, Columbia University

Jason Bordoff joined the Columbia University faculty in January 2013. Bordoff is a professor of professional practice and serves as founding director of the School of International and Public Affairs' Center on Global Energy Policy (CGEP).

CGEP's mission is to enable public and private sector leaders to make more informed choices about the world's pressing energy issues by providing an independent and interdisciplinary platform for insights and data-driven analysis, convening and information-sharing, education and training and actionable recommendations on the current and future global energy system.

One of the world's top energy policy experts, Bordoff joined President Barack Obama's administration in April 2009.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Mark Brownstein
Senior Vice President, Energy, Environmental Defense Fund

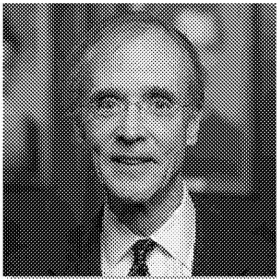

Mark Brownstein is senior vice president of energy at Environmental Defense Fund, and a member of EDF's executive team. He leads the organization's work on electricity, oil and gas, and transportation. The goal of the program is to deliver tangible environmental and public health gains while accelerating the energy sector's transition to a low-carbon future. Mark Brownstein is Senior Vice President of Energy at Environmental Defense Fund, and a member of EDF's executive team. He leads the organization's work on electricity, oil and gas, and transportation. The goal of the program is to deliver tangible environmental and public health gains while accelerating the energy sector's transition to a low carbon future. Mark Brownstein is Senior

Vice President of Energy at Environmental Defense Fund, and a member of EDF's executive team. He leads the organization's work on electricity, oil and gas, and transportation. The goal of the program is to deliver tangible environmental and public health gains while accelerating the energy sector's transition to a low carbon future. The goal of the program is to deliver tangible environmental and public health gains while accelerating the energy sector's transition to a low carbon future.

Notes: Recently posted positive Tweet about EM's opposition to the EPA's rollback of methane regulations.

[[HYPERLINK \I "TOP" \]](#)

Leo Burke
Director, Climate Investing Initiative, Notre Dame

Leo Burke has served as the director of the Climate Investing Initiative at the University of Notre Dame's Mendoza College of Business since January 2016. Leo was heavily involved in Vatican energy CEO meetings.

Burke also directs the Global Commons Initiative at Mendoza. The Global Commons Initiative offers education for undergraduates, graduate students and the public on the emerging paradigm of the global commons and its essential role in enabling a sustainable world.

Notes: Burke was very helpful in organizing the Vatican interactions.

[[HYPERLINK \I "TOP"](#)]

Mark Campanale
Founder and Executive Director, Carbon Tracker Initiative

Mark is the founder of the Carbon Tracker Initiative, a non-profit think tank researching the impact of climate change on financial markets. Carbon Tracker popularized the notion of a carbon bubble, which "describes the incompatibility between the continued development of fossil fuel projects and combating climate change."

He commissioned and was editor of "Unburnable Carbon – Are the World's Financial Markets Carrying a Carbon Bubble?," a report that launched the Carbon Tracker Initiative in November 2011. More recently, Mark founded and is chair of the Fish Tracker Initiative, which focuses on limits to growth in the fisheries space.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Brad Crabtree
Vice President, Carbon Management, Great Plains Institute

Brad Crabtree joined the Great Plains Institute (GPI) in 2002 and is responsible for managing its carbon management program.

The Great Plains Institute is dedicated to engaging and collaborating with people, organizations and communities to craft nonpartisan, pragmatic energy solutions that benefit the economy and environment. GPI's goals for transforming the energy system include to: increase energy efficiency and productivity; decarbonize electricity production; electrify the economy and adopt zero- and low-carbon fuels; and capture carbon for beneficial use and permanent storage.

Crabtree co-directs the national Carbon Capture Coalition, a partnership of energy, industrial and technology companies, labor unions, and environmental, energy and agricultural organizations.

Notes: Strong CCS supporter.
\\ "TOP"]

[[HYPERLINK](#)]

David Doniger
Senior Strategic Director, Climate & Clean Energy Program, Natural Resources Defense Council

David Doniger has been at the forefront of the battle against air pollution and global climate change since he joined NRDC in 1978. He helped formulate the Montreal Protocol, an international agreement designed to stop the depletion of the earth's ozone layer, as well as several essential amendments to the Clean Air Act. In 1993.

The NRDC is a United States-based 501(c)(3) non-profit international environmental advocacy group, with its headquarters in New York City and offices in Washington, D.C., San Francisco, Los Angeles, New Delhi, Chicago, Bozeman, and Beijing. Founded in 1970, the NRDC has over 3 million members, with online activities nationwide, and a staff of about 600 lawyers, scientists and other policy experts.

Notes: N/A

[[HYPERLINK \\ "TOP" \]](#)

Christiana Figueres
Founding Partner, Global Optimism

Christiana Figueres was the executive secretary of the United Nations Framework Convention on Climate Change from 2010-2016. During her tenure at the UNFCCC, Figueres brought together national and sub-national governments, corporations and activists, financial institutions and NGOs to jointly deliver the historic Paris Agreement on climate change, in which 195 sovereign nations agreed on a collaborative path forward to limit future global warming to well below 2C.

Figueres is a founding partner of Global Optimism Ltd., a purpose driven enterprise focused on social and environmental change.

Notes: N/A

[[HYPERLINK \\ "TOP" \]](#)

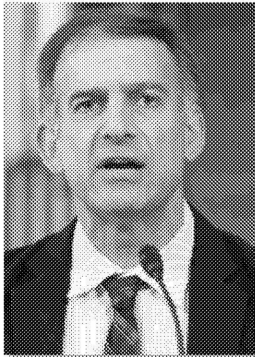

Karen Florini
Vice President for Programs, Climate Central

Karen Florini is vice president for programs at Climate Central, where her roles include developing and implementing communications strategies that reach and move large U.S. and global audiences as well as key decision-makers. In addition, she leads the integration of Climate Central's program efforts, and oversees the creation and distribution of the group's products to the public and thought leaders.

Climate Central is an independent organization of leading scientists and journalists researching and reporting the facts about our changing climate and its impact on the public. Climate Central surveys and conducts scientific research on climate change and informs the public of key findings.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Dr. Julio Friedmann
Senior Research Scholar at Center for Global Energy Policy,
Columbia University

Dr. Julio Friedmann is a senior research scholar at the Center for Global Energy Policy at Columbia University.

Dr. Friedmann is one of the most widely known and authoritative experts in the U.S. on carbon removal (CO2 drawdown from the air and oceans), CO2 conversion and use (carbon-to-value), and carbon capture and sequestration. His expertise includes technology, policy, and operations. In addition to close partnerships with many private

companies and NGOs, Julio has worked with the U.S. State Department, the U.S. Environmental Protection Agency, and the U.S. Treasury.

Notes: Strong ally and knows EM team well; supports CCS

[[HYPERLINK \I "TOP"](#)]

Ted Halstead
Chairman and Chief Executive Officer; Climate Leadership
Council

Ted Halstead is a policy entrepreneur, climate expert and author, who has founded three leading public policy institutes. His latest is the Climate Leadership Council, where he serves as Chairman and CEO. Its mission is to convene global opinion leaders around the most cost-effective, popular and equitable climate solutions.

Previously, Halstead founded New America, a centrist public policy institute that has become one of the largest and most influential think tanks in Washington, DC. He served as founding President and CEO of New America from 1999 to 2007.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

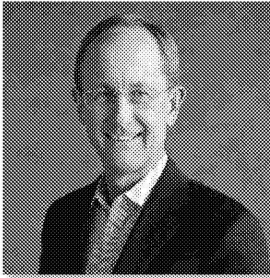

Anthony Hobley
Chair, Advisory Board, Carbon Tracker

Anthony Hobley is the co-chair of the advisory board of Carbon Tracker and the former chief executive officer from 2014 until he stepped down in March 2019.

Carbon Tracker popularized the notion of a "carbon bubble," which "describes the incompatibility between the continued development of fossil fuel projects and combating climate change."

Notes: Highly critical of oil and gas industry

[[HYPERLINK \I "TOP"](#)]

Jules Kortenhorst
Chief Executive Officer, Rocky Mountain Institute

Jules Kortenhorst is the chief executive officer of Rocky Mountain Institute (RMI). He is a recognized leader on global energy issues and climate change. His background spans business, government, entrepreneurial and nonprofit leadership.

Since 1982, Rocky Mountain Institute has advanced market-based solutions that transform global energy use to create a clean, prosperous and secure future. An independent, non-profit think tank, RMI engages with businesses, communities and institutions to accelerate and scale replicable solutions that drive the cost-effective shift from fossil fuels to efficiency and renewables.

Notes: RMI works closely with EMRE Technology Scouting & Venturing team (Nazeer Bhore).

[[HYPERLINK \I "TOP"](#)]

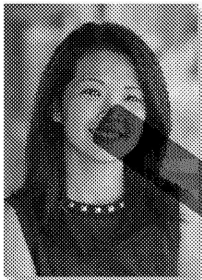

Andrew Logan
Senior Director, Oil and Gas, Ceres

Since joining Ceres in 2002, Andrew has worked with investors to engage the oil and gas sector on key sustainability issues including climate change, carbon asset risk, biodiversity and water.

Ceres is a sustainability non-profit organization working with the most influential investors and companies to build leadership and drive solutions throughout the economy.

Notes: Highly critical of EM; suspect NYAG involvement. Participated in the Climate Action 100+ engagement in Boston, Nov. 2018.

[[HYPERLINK \I "TOP"](#)]

Lynn Loo
Director of Andlinger Center for Energy and the Environment, Princeton University

Lynn Loo is a professor in engineering and director of the Andlinger Center for Energy and the Environment at Princeton University.

Dr. Loo was associate director of external partnerships at the Andlinger Center from 2011 to 2015, during which she launched and led Princeton E-affiliates Partnership to promote teacher-student-practitioner interactions and foster collaboration with the private sector.

With more than 115 affiliated faculty members spanning science and engineering disciplines and humanities, the Andlinger Center is developing solutions to ensure the world's energy and environmental future.

Notes: Strong supporter of EM; recently participated on a panel with Vijay Swarup at the Aspen Ideas Festival.

[[HYPERLINK \I "TOP"](#)]

Mindy Lubber
CEO and President, Ceres

Mindy Lubber is the CEO, president and an early board member of Ceres, a sustainability non-profit organization working with the most influential investors and companies to build leadership and drive solutions throughout the economy. Under her leadership, Ceres has launched "visionary and practical guides," including The Ceres Blueprint for Sustainable Investing and The Ceres Roadmap for Sustainability for investors and companies to succeed in the 21st century global economy.

Lubber leads negotiating teams of institutional investors, Fortune 500 CEOs and sustainability advocates who have taken far-reaching positions on corporate practices to tackle climate change, water scarcity, pollution and inequitable workplaces.

Notes: Has been critical of EM's disclosures and ECS report. Ceres (Andrew Logan, Senior Director) participated in the Climate Action 100+ engagement in Boston, Nov. 2018.

[[HYPERLINK \I "TOP"](#)]

Maria Mendiluce
Managing Director, Climate & Energy, Cities & Mobility and Circular Economy; World Business Council for Sustainable Development (WBCSD)

Maria Mendiluce has over 20 years' experience in sustainable development, energy and climate action. She sits in the senior management team of WBCSD, guiding over 200 member companies on transformative climate policy, energy transition, plastic waste and urban mobility. WBCSD is a global, CEO-led organization of over 200 leading businesses working together to accelerate the transition to a sustainable world.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Nancy Meyer
Vice President for Business Engagement, Center for Climate and Energy Solutions

Nancy Meyer is vice president for business engagement at the Center for Climate and Energy Solutions (C2ES). She leads the center's business engagement, including the Business Environmental Leadership Council, a select, invitation-only group of major companies committed to climate and energy leadership that promotes practical and effective solutions to climate change challenges.

The mission of C2ES is to advance strong policy and action to reduce greenhouse gas emissions, promote clean energy, and strengthen resilience to climate impacts. A key objective is a national market-based program to reduce emissions cost effectively.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

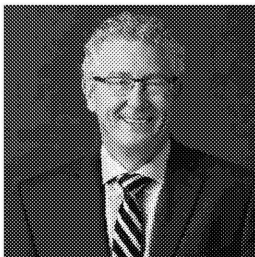

Helena Molin Valdés
Head of Climate and Clean Air Coalition (CCAC) Secretariat at the UN Environment

Helena Molin Valdés is the head of the Climate and Clean Air Coalition (CCAC) Secretariat at the UN Environment office in Paris, a position that she's held since 2013. Helena is an experienced leader within the UN system. She was a senior executive with the UN Office for Disaster Risk Reduction (UNISDR), where she led work on resilience, disaster risk reduction, sustainable development, and climate change related topics.

She was UNISDR's regional director for Latin America and the Caribbean and worked with the Pan American Health Organization on hospital mitigation and disaster preparedness.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Brad Page
CEO, Global CCS Institute

Brad joined the Institute as CEO in August 2011, bringing extensive knowledge and experience on Australian and international energy and climate policy issues. Prior to the Institute, Brad spent almost eight years as CEO of the Energy Supply Association of Australia, steering the organization through a period of significant transformation while representing members on a wide range of energy market and climate change policy issues.

The Global CCS Institute is an international think tank whose mission is to accelerate the deployment of carbon capture and storage (CCS).

Notes: Relationship with CSP team (Guy Powell).

[[HYPERLINK \I "TOP"](#)]

Dr. Sergey Paltsev
Deputy Director of the MIT Joint Program on the Science and Policy of Global Change

Dr. Sergey Paltsev is a Deputy Director of the MIT Joint Program on the Science and Policy of Global Change and a Senior Research Scientist at MIT Energy Initiative and MIT Center for Energy and Environmental Policy Research (CEEPR).

He is the lead modeler in charge of the MIT Economic Projection and Policy Analysis (EPPA) model of the world economy. His research covers a wide range of topics including energy economics, climate policy, taxation, advanced energy technologies, and international trade.

Notes: Talented economist; works closely with EM on scenario modeling.

[[HYPERLINK \I "TOP"](#)]

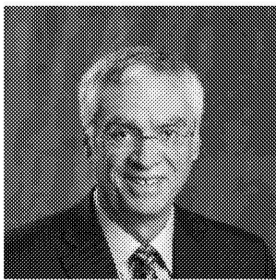

Janet Peace
Senior Vice President, Policy and Business Strategy, Center for Climate and Energy Solutions

Janet Peace is the senior vice president of policy and business strategy at the Center for Climate and Energy Solutions (C2ES). She manages the center's Business Environmental Leadership Council (BELC), the largest U.S.-based association of companies devoted to climate-related policy and corporate strategies. The BELC contains mainly Fortune 500 companies with combined revenues of over \$2 trillion and more than 3.5 million employees. She also manages the center's resilience program and its analysis of market-based policy options.

The mission of C2ES is to advance strong policy and action to reduce greenhouse gas emissions, promote clean energy, and strengthen resilience to climate impacts. A key objective is a national market-based program to reduce emissions cost-effectively.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Bob Perciasepe
President, Center for Climate and Energy Solutions

Bob Perciasepe is president of the Center for Climate and Energy Solutions (C2ES), which is widely recognized in the United States and internationally as a leading, independent voice for practical policy and action to address our energy and climate challenges.

Mr. Perciasepe has been an environmental policy leader in and outside government for more than 40 years, most recently as deputy administrator of the U.S. Environmental Protection Agency (EPA). He is a respected expert on environmental stewardship, natural resource management, and public policy, and has built a reputation for bringing stakeholders together to solve issues.

Notes: Practical and solutions oriented; supports CCS.

[[HYPERLINK \I "TOP"](#)]

Jonathan Pershing
Program Director, Environment, Hewlett Foundation

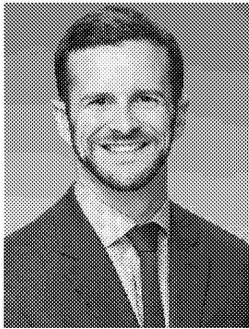

Jonathan Pershing is the program director of environment at the William and Flora Hewlett Foundation. He leads a team of grantmakers focused on climate change in the U.S., China, India, Europe and Latin America, and conserving the North American West. He joined the foundation in January 2017.

Previously, Jonathan served as Special Envoy for Climate Change at the U.S. Department of State and lead U.S. negotiator to the U.N. Framework Convention on

Climate Change. The Hewlett Foundation supports efforts to advance education for all, preserve the environment, improve lives and livelihoods in developing countries, promote the health and economic well-being of women, support vibrant performing arts, strengthen Bay Area communities and make the philanthropy sector more effective.

Notes: Hewlett Foundation funds anti oil and gas industry activities.

[[HYPERLINK \I "TOP"](#)]

Ben Ratner
Senior Director, EDF+Business

Ben leads the EDF+Business Energy & Innovation team, a group of business experts catalyzing advances in energy and innovation for a safer climate and healthier environment.

The EDF is a 501(c)(3) nonprofit organization. It is one of the world's largest environmental organizations, with more than 2.5 million members and a staff of 700 scientists, economists, policy experts and other professionals around the world. EDF's mission is to preserve the natural systems on which all life depends. EDF works in concert with other organizations — as well as with business, government and communities.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Joseph Robertson
Global Strategy Director, Citizens' Climate Lobby

Joseph Robertson is Citizens' Climate Lobby's Global Strategy Director. He does policy analysis, coordinates strategy to train and empower volunteers, and develops new groups abroad. He leads the organization's engagement with the United Nations, the World Bank, the IMF, the Carbon Pricing Leadership Coalition, and other multilateral institutions.

Joe also leads the Citizens' Climate Engagement Network, a global organizing project from Citizens' Climate Lobby and Citizens' Climate Education, supported by an advisory coalition of partner organizations, aimed at expanding the global civic space for effective climate policy.

Citizens' Climate Lobby is a non-profit, nonpartisan, grassroots advocacy organization focused on national policies to address climate change.

Notes: Carbon-tax supporter

[[HYPERLINK \I "TOP"](#)]

Robert Schuwerk
Executive Director, North America

Robert Schuwerk is interim director North America and works on Carbon Tracker's U.S. regulatory and legal strategy and activities.

Carbon Tracker is an independent financial think tank that carries out in-depth analysis on the impact of the energy transition on capital markets and the potential investment in high-cost, carbon-intensive fossil fuels.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Frances Seymour
Distinguished Senior Fellow, World Resources Institute

Frances Seymour is one of the world's foremost authorities on sustainable development whose extensive research, leadership and management experience has given her a deep understanding of the environment-related opportunities and challenges facing developing countries. Her current work focusses on harnessing the potential of forests to contribute to climate change mitigation and adaptation, understanding non-carbon pathways through which forests affect climate, ending commodity-driven deforestation and cultivating awareness among urban constituencies of the benefits forests provide to cities.

Based in Washington, DC, WRI is a global research firm spanning more than 50 countries that turns big ideas into action at the nexus of environment, economic opportunity and human well-being, to help cultures thrive.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Anne Simpson
Investment Director, CalPERS

Anne Simpson is the senior portfolio manager, investments and director of global governance at CalPERS.

It is the largest public pension system in the United States with approximately \$300 billion in global assets. The governance program includes CalPERS Focus List of shareholder engagement with companies, global proxy voting, and legal and regulatory reform. Simpson is leading CalPERS' sustainability project to integrate environmental, social, and governance (ESG) factors across the total fund.

Notes: CalPERS holds about 9M shares. IR have met with CalPERS five times since Dec. 2018, with CalPERS represented by Craig Rhines, James Campbell and Anne Simpson. Campbell suggested CalPERS does not agree with Simpson's extreme views and focus around climate and she has stepped beyond her authority many times in representing her views as CalPERS'.

He indicated she has been sidelined and moved out of key decision making as CalPERS becomes more financially oriented. CalPERS is Co-Lead for the EMC Climate Action 100+ team and will be participating in the Sept. 24 director engagement.

[[HYPERLINK \I "TOP"](#)]

Brian Sullivan
Executive Director, Industry Environmental Conservation Association

Sullivan joined Industry Environmental Conservation Association (IPIECA) as the executive director in 2011 following a 23-year career in BP.

IPIECA is a non-profit association that provides a forum for encouraging continuous improvement in industry performance. IPIECA is the only global association involving both the upstream and downstream oil and gas industry. It is also the industry's principal channel of communication with the United Nations.

Notes: Longstanding EM relationship with IPIECA

[[HYPERLINK \I "TOP"](#)]

David Victor
Co-Chair, Cross-Brookings Initiative on Energy and Climate, Brookings Institution

David Victor is a professor of international relations at the School of Global Policy and Strategy and director of the Laboratory on International Law and Regulation (ILAR). His research focuses on regulated industries and how regulation affects the operation of major energy markets. He has a dual understanding of the science behind climate change and how international and domestic public policy work.

The Brookings Institution conducts research and education in the social sciences, primarily in economics, metropolitan policy, governance, foreign policy, and global economy and economic development. Its stated mission is to "provide innovative and practical recommendations that advance three broad goals: strengthen American democracy; foster the economic and social welfare, security and opportunity of all Americans; and secure a more open, safe, prosperous, and cooperative international system."

Notes: Good relationship with CSP team; clear, practical thinker and policy expert.

[[HYPERLINK \I "TOP"](#)]

Kurt Waltzer
Managing Director, Clean Air Task Force

Kurt Waltzer is the managing director for the Clean Air Task Force. He is responsible for ensuring that CATF has the strategic and operating capabilities it needs to carry out its mission. In this role he provides oversight and support of organizational management and administrative activities, as well as ongoing development and implementation of organizational strategy.

In addition, Kurt maintains a focus on carbon capture, utilization, and sequestration (CCUS) development and deployment under the Decarbonized Fossil Energy program. Kurt was an early advocate of advanced fossil and CCUS in the environmental NGO community and has been working to promote it since 2001. He has led the development of federal and state incentive policies for CCUS, and helped facilitate support for CCUS projects. He's authored and co-authored several reports and articles as well as managed several economic analyses on low carbon fossil technology.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Christopher Webb
Senior Policy Advisor Climate Change, Europe, The Nature Conservancy

Chris Webb is a carbon markets and forest carbon specialist with extensive experience working within the nascent forest carbon market. He has worked with several project developers and some of the world's leading conservation groups to provide strategic commercial, technical and financial advice in relation to the development of a reforestation and conservation projects in Africa, Central America and South East Asia.

The mission of The Nature Conservancy is to conserve the lands and waters on which all life depends. The organization focuses on threats to conservation involving climate change, fire, fresh water, forests, invasive species, and marine ecosystems.

Notes: N/A

[[HYPERLINK \I "TOP"](#)]

Dan Yergin
Vice Chairman, IHS

Daniel Yergin is a highly respected authority on energy, international politics, and economics. He is vice chairman of IHS and founder of IHS Cambridge Energy Research Associates.

Notes: Strong supporter of O&G industry

[[HYPERLINK \I "TOP"](#)]

Ethan Zindler
Head of Americas, Bloomberg New Energy Finance

Ethan Zindler is head of Americas at Bloomberg NEF, a provider of insight, data and news on clean energy, advanced transport, commodities, and emerging technologies. In that capacity, Zindler manages the company's analyst and commercial teams in New York, Washington, San Francisco, and Sao Paulo. Ethan also oversees Climatescope, a project to profile clean energy investment conditions in emerging market countries underwritten by the U.K. and U.S. governments.

Notes: CSP Energy Outlook team meets regularly with Zindler to exchange views.

[[HYPERLINK \I "TOP"](#)]

HCOR
