Dear Congresswoman Eshoo,

Thank you for your longstanding leadership in promoting and strengthening our democracy by championing key reforms throughout your tenure in Congress. Common Cause appreciates your leadership in introducing the Presidential Tax Transparency Act (HR 305) earlier this year. We wholeheartedly endorse this critical legislation that would ensure all Americans would have important information about presidential candidates. We hope that the relevant Committees to which this legislation has been referred will consider this bill and that the full House of Representatives will then debate and vote on it.

Sincerely,

Aaron Scherb
Director of Legislative Affairs
