Jonathan M. Nelson CEO Providence Equity Partners LLC 50 Kennedy Plaza, 18th Floor Providence, RI 02903

Jeffrey S. Campbell President and CFO Altegrity 7799 Leesburg Pike Suite 1100 North Falls Church, VA 22043

Dear Mr. Nelson and Mr. Campbell:

I am writing to request information about a significant data breach that occurred at USIS in August. I am directing this request to you because our investigation has shown that USIS is a wholly-owned subsidiary of Altegrity, and because principals at Providence Equity Partners own a majority share of Altegrity, sit on its Board of Directors, and provide direction and supervision to top managers at USIS. Despite multiple requests for information to USIS executives and their attorneys, the company has refused to provide information or answer questions about this breach.

In August, hackers successfully broke into the network of USIS, the largest private provider of background investigations for the federal government. This breach reportedly compromised the personally identifiable information of at least 27,000 federal employees who were in the process of obtaining, or who had recently obtained, security clearances in order to conduct classified work for federal government agencies. Federal cyber security experts believe that number is a floor, not a ceiling, and that many more records from other federal agencies may have been compromised.

In March, hackers broke into the network of Federal Investigative Services, a division of the Office of Personnel Management and the largest government provider of background investigations, but no personally identifiable information reportedly was compromised. It is unclear why USIS data protections were not as robust as the government's protections or why USIS was not better prepared since the August incident occurred nearly six months after the unsuccessful breach attempt at Federal Investigative Services.

Mr. Jonathan M. Nelson and Mr. Jeffrey S. Campbell Page 2

As the owners and directors of USIS and other subsidiaries that have similar government contracts, you have the ultimate responsibility to ensure that all of your companies properly safeguard the information they obtain through the course of their work on behalf of the American people.

For these reasons, I request that you provide the following information:

- (1) all data security requirements applying to USIS and other Altegrity subsidiaries pursuant to federal contracts in effect at the time of the August data breach;
- (2) a complete log of all successful cyber intrusions into USIS and other Altegrity subsidiaries' networks in the last four years;
- documents relating to any weaknesses or vulnerabilities in USIS data security identified by the United States Computer Emergency Readiness Team;
- (4) a list of all federal customers that may have been compromised in the August incident;
- (5) an estimate of the total possible number of PII records that may have been compromised in the August incident;
- (6) the date range of records that may have been compromised in the August incident, including when the records were created and last updated prior to the August incident;
- (7) an explanation of why your company retained PII of federal workers;
- (8) an explanation of whether system log capabilities were sufficient to determine whether or not PII was removed or altered by the hackers;
- (9) an explanation of whether Altegrity subsidiaries share proprietary IT characteristics and software with USIS and, if so, whether the August incident allowed hackers access to PII retained by other Altegrity subsidiaries; and
- (10) an explanation of whether PII of any private sector clients of Altegrity subsidiaries may have been compromised in the August incident and, if so, whether you notified those clients.

Please provide this information by December 5, 2014. If you have questions about this request, please contact Lena Chang at (202) 225-5051.

Mr. Jonathan M. Nelson and Mr. Jeffrey S. Campbell Page 3

Thank you for your consideration of this request.

Sincerely,

Elijah E. Cummings

Ranking Member
