Daily FEMA calls for 3-10-2006. See attachments

**Daily FEMA Phone Log**

**Name:** John Bruhn

**Date:** 3-10-2006

**Who** [REDACTED]

**With** Retail

**FEMA Contractor**

**Unit #** 54-[REDACTED]

**Phone #** 504-[REDACTED]

**Issues discussed** Retail as strong odor, burns eyes. Unit delivered in December but only until now need to live in. I asked is it sewer gas? No. Is it LP Gas odor and has any of the detector alarms sounded? No. I asked since Dec. have you opened windows, run the A/C to air out? Yes. The odor comes and goes; One day will have and next will not.

**Resolution** I directed her to the Disaster Recovery Center in Metairie. She did not have a FEMA service phone number to call.
